

BUDGET RECOMMENDATIONS FOR CLEAN ENERGY AND THE ENVIRONMENT

THE BUDGET RECOMMENDATION CALLS FOR FUNDING CENTERED ON THE ENVIRONMENT, INCLUDING:

- \$20 million for contaminated site cleanup to support rapid response to contaminated sites that pose an immediate threat.
- \$5 million for the State Facility Green Revolving Fund which is a catalyst for energy efficiency and renewable energy projects at state facilities, helping reduce the state's carbon footprint.
- \$5 million to support the purchase of propane tanks with funds provided as grants with a 50 percent match to help meet our energy needs.
- \$5 million for the Michigan Saves Green Bank to leverage private investment in clean energy improvements by incentivizing lenders to provide more favorable rates and terms for renewable energy improvements, promoting \$150 million in private capital for clean energy improvements across the state.
