

# Opioid Settlement Funds

## Request for Funding Proposals MAC Template

### Overview

County invites organizations or groups addressing opioid prevention, harm reduction, treatment and recovery to apply for funding to support development, implementation, enhancement or expansion of programs. This includes programs addressing substance use disorders, polysubstance use and co-occurring mental health and substance use disorders. While the selection process will utilize a competitive Request for Proposals (RFP) process, the number of awards will be dependent on the amount of funds available for annual allocation. The amount of funds available will differ annually and proposals will be accepted annually beginning in (month).

### Background

In 2021, a \$26 billion nationwide settlement was reached to resolve all Opioids litigation brought by states and local political subdivisions against the three largest pharmaceutical distributors: McKesson, Cardinal Health and AmerisourceBergen (“Distributors”), and manufacturer Janssen Pharmaceuticals, Inc. and its parent company Johnson & Johnson (collectively, “J&J”).

The state of Michigan is slated to receive approximately \$776 million over 18 years. Fifty percent (50%) of the settlement amount will be sent directed to county and local governments. The national agreement also requires significant industry changes that will help prevent this type of crisis from ever happening again.

In 2022, additional settlements with pharmacies and manufacturers were announced, including CVS, Walmart, Allergan and Teva. These four settlements are expected to bring in around \$450 million to Michigan, divided with fifty percent (50%) directed to local governments.

Michigan can also expect additional funds received through companies Purdue Pharma, Mallinckrodt PLC and Endo, which are pursuing bankruptcy plans that include funding opioid abatement trusts.

*Currently, County has received two (2) payments from the Distributors settlement and five (5) payments from the J&J settlement. Due to funding amounts changing annually, County will, on average, have dollars available each year for opioid remediation activities. The number of payments/length of time for each settlement will also differ.*
