

OPIOID SETTLEMENT TECHNICAL ASSISTANCE LEARNING SERIES

ABOUT THE EVENTS

This monthly series of educational webinars will be organized and hosted by the Technical Assistance Collaborative in an effort to share information with communities surrounding best practices for opioid related issues. Attendees will exchange information with leading researchers to determine community needs, and learn about best practices for the domains of the state opioid pillars. The goal of this series is to assist county, city and township officials who have received settlement funding and are involved and/or interested in learning more about evidence-based practices and strategies to help remediate opioid overdoses in their communities.

JULY 27, 2023

Time: 2:30 p.m. - 4:00 p.m.

Topic: Treating Opioid Use Disorder in Jails

Presenters:

- Matthew Costello, LMSW, Center for Behavioral Health and Justice, Wayne State University
- Allison Gorine, LMSW, Center for Behavioral Health and Justice, Wayne State University
